COMPUTING for ALL

WASHINGTON'S 2nd ANNUAL
Middle School Computer Science Competition

Saturday, May 14, 2016 | 9am-2:30pm
Microsoft Mixer Building (The Commons)
15255 NE 40th St. Redmond, WA 98052

AWARDS!
TRIVIA!
WORKSHOPS!
GUEST SPEAKERS!

We are proud to announce our 2nd annual computer programming competition open to grades 5-8! The competition includes timed team and individual challenges, followed by a fun "Jeopardy Round" of computing trivia!

Students can demo their Scratch projects in our Original Project category. Projects will be judged on creativity, technical merit, & programming style. Compete individually or in a team of 2-3 students.

Visit ComputingForAll.org
Register by the deadline: May 6th!

Guest Speaker: Prof. Shwetak N. Patel

Shwetak will describe his journey into building a career in computing, and how it is now at the core of everything we do. He will describe his on-going work in applying computing to health management and sustainability.
